VITAMIN

01

Recently, affected by the market conditions, the transaction price of biotin is around 150-160 USD/KG. It is expected to show a stable trend in the short term, and we will continue to pay attention to the market conditions.

AMINO ACID

02

According to market news: On October 15, 2024, the latest quotation of Dacheng Biochemical's amino acid products is: 70% lysine RMB 5,000/ton, 98% lysine RMB 11,300/ton, and threonine RMB 12,500/ton, with limited supply to long-term and stable cooperative customers.

API

03

Recently, the Hunan Provincial Department of Industry and Information Technology announced the list of Hunan Province's green manufacturing in 2024, and Hunan Pilot Biotechnology Co., Ltd. was awarded the title of "Hunan Province Green Factory". This is the first provincial green factory of Pilot Bio Group, which indicates that its green and low-carbon practices and green manufacturing capabilities have been fully recognized.

FOOD ADDITIVE

04

Recently, the quality improvement and volume increase transformation project of Hunan Baolishi Biotechnology Co., Ltd. was announced on the relevant website. The total investment of this project is 20 million yuan. The nature of the project is renovation and expansion, adding new products such as D-alanine, citicoline sodium, acetyl phosphate, etc.; L-norvaline, D-phenylalanine, and homophenylalanine are expanded by increasing the annual production batches.
