VITAMIN

01

Recently, Jindawei announced that the company and its wholly-owned subsidiary Xiamen Jindawei Vitamin Co., Ltd. recently received an invention patent certificate issued by the State Intellectual Property Office. Invention name: Immobilized N-hydroxyphthalimide resin and its preparation method and application and preparation method of 7-ketocholesterol acetate. The patent application date is December 22, 2021, and the patent term is 20 years.

AMINO ACID

02

Recently, the market price of lysine has been stable, but the factory's spot supply is tight and the delivery time is a bit far. There are many orders signed in the early stage, and the factory is currently focusing on delivery. According to customs data, 97,000 tons of lysine esters and salts were exported in September, an increase of 15.4% month-on-month and 17.2% year-on-year.

API

03

After Shuangcheng Pharmaceutical announced a cross-border acquisition to enter the semiconductor industry, cross-border acquisitions in the pharmaceutical industry reappeared. On October 22, Sichuan Shuangma issued an announcement that it plans to acquire 92.1745% of the equity of Jianyuan Pharmaceutical Technology Co., Ltd., a peptide API company, for 1.596 billion yuan, entering the peptide market. Shenzhen Jianyuan was established in 2009. Its business includes peptide API R&D and production business, peptide customized R&D and production business, and beauty peptide R&D and production business.

FOOD ADDITIVE

04

It is reported that the construction information of the "Synthetic Biology Scientific and Technological Innovation R&D and Production Integration Project" invested and constructed by Anhui Bokoli Biotechnology Co., Ltd. has been announced on relevant websites. The project uses microbial fermentation to produce GABA, and after completion, the project will achieve an annual production capacity of 1,440 tons.
